"Homosexuality is More than Sex"

To find out why, come to the

Psychology Discussion Group

We are a group of serious men and women who believe in the value of shared psychological insights in the promotion of personal growth. Come to our discussion groups at the Lesbian and Gay Community Services Center to talk about the following topics and more:

- **homosexuality and creativity**
- **gender and identity**
- **masculinity and femininity**

Coming out of the closet is only the first step in a lifelong journey. Come share your discoveries with us. Meetings are held on the first Fridays of each month from 8:00 PM until around 10:00 PM. A donation of $3 per person is requested. For more information, call the Ninth Street Center at 212/228-5153.
